

FOUR SHIPS, *One Horizon*

Virgin Voyages looks to 2027 with new destinations, longer routes, and historic moments.

FOR years, the Virgin Voyages fleet has operated like ships in the night—sisters passing on opposite sides of the globe. That changes in 2027. As the brand expands into new homeports and longer routes, its adults-only, high-energy culture gains a larger international footprint from the Pacific Coast to the ancient Aegean.

WHERE ALL HORIZONS MEET

The headline event of 2027 is a coordinated fleet event on an unprecedented scale. In February, the four sisters—*Scarlet*, *Valiant*, *Resilient*, and *Brilliant*—will converge at a single shared coordinate in the Caribbean. Imagine 15,000 guests and crew across four iconic red hulls, moving in formation across open water. Virgin Voyages owner Sir Richard Branson is set to make appearances on all four ships, moving between vessels to toast this historic alignment. It's a rare moment when four separate itineraries come together as a single shared event, becoming the world's most exclusive floating party.

WEST COAST SWAGGER

The arrival of *Brilliant Lady* in Los Angeles is a permanent expansion into the West Coast. While her seven-night Mexican Riviera journeys depart Los Angeles for ports along Mexico's Pacific coast, the crown jewel is the 17-night Panama Canal transit to Miami. Moving lock by lock between two oceans is a bucket-list rite of passage offered only twice a year. It's a rare route linking the laid-back, golden-hour cool of the Pacific with the high-octane, neon energy of Miami's nightlife.

THE INNER CIRCLE

The annual Red Hot Sailing Club Voyage is a love letter to the guests who keep coming back—and an open invitation to anyone ready to join them. Following a musical legacy that has featured stars like Nile Rodgers, CHIC, and Boy George, the 2027 lineup is still in the works, promising even more electric live performances and kid-free camaraderie. Invitations to secret programming and artist Q&A sessions await a select group of the fleet's most frequent “sailors” (Virgin's cheeky name for guests).

THE ATHENS ODYSSEY

Scarlet Lady will soon trade weekend hops for the long game. By making Athens her permanent Mediterranean muse, she's unlocking more soulful itineraries. We're talking eight- to 11-night deep dives into the undiscovered jewels of Sarandë, Albania, and the sprawling markets of Istanbul. With signature late-night departures, guests can go from merely seeing the Mediterranean to spending more hours living it—planting Virgin in the very cradle of history as the sun sets over the Bosphorus. — CASANDRA KARPIAK
