

LUXURY IN MOTION

Aman at Sea introduces *Amangati*, extending its ethos beyond land.

FOR nearly four decades, Aman has been the pioneer of quiet luxury, its name drawn from the Sanskrit word for peace. In spring 2027, that legendary philosophy takes to sea. The first vessel from Aman at Sea, *Amangati*—meaning “peaceful motion”—turns a natural extension of land retreats into a spacious floating sanctuary that replicates the fluidity of the ocean itself.

Centered on proportion and privacy, the design creates a subtle choreography of how space, light, and water interact. Vast floor-to-ceiling windows transform the ocean into the primary visual element, fostering an environment that feels wholly exclusive. Arrival is a relaxed experience as guests are invited to bypass the clamor of bustling ports, escorted in by luxury tender or descending from the clouds onto the yacht’s dual helipads.

At the stern, the Marina seems to dissolve at the edge of the ship where the hull meets the tide. It’s designed like a secluded shoreline—electric surfboards, e-Foils, and other water toys ready to skim the surface without breaking the calm of a hidden Mediterranean bay.

Amangati hosts one of the most extensive wellness environments in luxury yachting. Aman Spa offers a series of quiet, ocean-facing suites, each opening onto a private terrace with a whirlpool bath, complemented by a hamman and banya. Between treatments, a two-story Japanese serenity garden creates a serene oasis for quiet reflection.

Four specialized bars include the Sake Bar and Cigar Lounge and the more playful Alira Pool Bar and Gelateria. Expect a mix of *washoku* (traditional Japanese) and vibrant Mediterranean cuisines served in spaces that focus on artistry and atmosphere. After dark, the ambiance shifts to the low-lit intimacy of The Jazz Club—the ship’s social heart that draws direct inspiration from the exclusive club at Aman New York.

The yacht’s inaugural voyages begin in the Mediterranean, and while it will undoubtedly make an impression in Cannes, the routes favor more hidden, secret bays. After a European summer, the autumn season will unveil exotic destinations throughout the Caribbean.

Ultimately, life on board settles into exactly what its name suggests for the fewer than 100 guests: a steady, quiet sense of peaceful motion. — CASANDRA KARPIAK
