

# The Magic of Central Europe

Adventures by Disney turns the region into a living storybook.

**EVERY** family vacation tells a story, but some stories hold a sprinkle of magic that lingers long after they’ve been shared. *Adventures by Disney* isn’t just travel—it’s storytelling that sparks the imagination. All great adventures start with a tale, and the best part? Your family gets to be the narrator.

Crossing the stone bridge into the Czech Republic’s Český Krumlov feels like stepping into a medieval fairytale—but through your children’s eyes, it becomes pure magic. Their laughter fills the cobblestone streets lined with colorful façades, while parents find themselves swept up in the charm of this UNESCO World Heritage Site. With the guidance of an expert local guide, stories of knights, royal feasts, and ancient castles bring the town’s history to life.

This moment is just one chapter in the unforgettable *Central Europe: Prague, Salzburg & Vienna* family tour with *Adventures by Disney*.

In Prague, the chiming Astronomical Clock mesmerizes kids while parents savor the history-rich atmosphere of Old Town Square. Strolling across the iconic Charles Bridge, the whole family pauses to make a wish and take in the sweeping views of the “City of a Hundred Spires.”

The journey continues in Salzburg, where families bond while visiting filming locations from *The Sound of Music*, as well as a 17th century hunting palace on the Hellbrunn Palace Tour. Dinner is more than just a meal—it’s an adventure in itself, savoring Austrian specialties at St. Peter Stiftskulinarium, Europe’s oldest restaurant that dates back to 803.

Vienna brings imperial grandeur to the experience. The elegance of Lipizzaner horses leaves children spellbound during a visit to the Spanish Riding School, which has perfected its craft for over 440 years. Families take a behind-the-scenes tour of the stables where trainers teach these majestic horses the art of classical dressage. Watching equine athletes rehearse their precise, elegant movements is a rare glimpse into a world of royal pageantry that thrives in modern Vienna.

Family fun continues at Schönbrunn Palace. Parents enjoy a private tour while kids explore the palace gardens’ labyrinth maze, their joyful shrieks echoing throughout this storied space.
